### Silverstone Sports Engineering Hub

Providing the perfect environment to grow and develop your business

White Commercial Surveyors, renowned for their Commercial Property Services to the Specialist Automotive Sector, have been asked to advise Silverstone Sports Engineering Hub (SSEH), a leading R&D facility for sports engineering and athlete development in the leasing of their office and workshop space at Silverstone - home of the British Grand Prix.

The building based at Silverstone Park, Buckinghamshire, provides an ideal central location for the UK, with easy access to local transport links. By providing available office and workshop space to rent, SSEH aims to create a 'Hub' which brings together some of the industry's leading companies into one community, offering unique opportunities for collaboration and state of the art R&D.

Existing facilities on site include a Sports Performance Wind Tunnel (SPWT), Fabric Wind Tunnel (FWT), Performance Lab, Cycling Test Lab, meeting rooms, social area, and several offices/ workshops.

The two-storey modern office building, with plenty of car parking has been designed to provide flexible office and workshop space from 350-3,800 sq ft for sports engineering and associated companies. The accommodation has been designed to be let on flexible licence agreements which will also provide access to changing facilities, social areas and a meeting room, encouraging meetings and social collaboration. Tenants also benefit from discounted rates on all SSEH facilities and have full use of the meeting rooms and social areas.
